

SINGLE-CHARITY FUND

Build long-term support for your mission

Give donors a flexible way to contribute assets, invest for potential growth, and create lasting support for your ministry.

Benefits of a Single-Charity Fund

A Single-Charity Fund helps your ministry unlock more generosity. With support for facilitating gifts of non-cash assets, charitable gift annuities, and future-focused funding, NCF provides donors with innovative ways to support your mission.

Encourage larger gifts

Enable donors to contribute appreciated assets that may be difficult to give directly.

Simple online access

Charities can access the funds on their timeline to support ongoing work.

Invite others to give to the fund

Use an NCF donate button to make it easy for others to contribute to the fund.

Invest for sustainable growth

Build future ministry resources through investment options with growth potential.

Giving beyond cash

NCF and its affiliated ministries accept a wide variety of assets – often in ways that create tax efficiencies. Donors may be able to give publicly traded stocks, mutual funds, privately held business interests, real estate, and other appreciated assets.

How it works

Each step is designed to help donors support your charity with greater intention and flexibility. It provides donors with a strategic way to give and support your organization over time.

A charity opens a fund

A charity establishes an NCF Single-Charity Fund dedicated exclusively to their organization.

The charity's donors give assets to the fund

Cash, appreciated securities, and other non-cash assets can be donated by the charity's supporters.

Simple, online grant-recommendation process

Charities can receive grants on their timeline to support ongoing work.

A solution for your most generous supporters

Build for the future:

If you're looking to set aside dollars for campaigns, special programs, or establishing a foundation, a Single-Charity Fund can be an efficient solution. Once established, your donors can give cash or non-cash assets into the fund.

The NCF difference

For more than 40 years, NCF has helped charities receive gifts that may otherwise be difficult to accept or administer. Our team works alongside your donors and their advisors to explore asset gift opportunities that can support long-term ministry impact.
